

Cities, Tribal Communities, and Special Districts Checklist

The following is a general checklist of action items associated with each jurisdiction's participation with the Countywide effort (RIVCOconnect) to connect 1 Gbps fiber to every premise throughout the County of Riverside.

City/Community/District: _____

Item	Date completed
Adoption of Resolution in support of County's Fiber Broadband Master Plan.	
Adoption of expedited fiber installation permitting process (streamlining process, bundling of permits, process of permits in bulk, and reducing the overall cost and complexity of permits and reviews associated with fiber installation).	
Establish a "Dig Once" process, whereby open conduit will be installed for future (or current if ready) fiber optic cabling whenever roadway construction occurs.	
Identification and sharing of ongoing or planned broadband projects underway within your jurisdiction.	
Willingness to participate as a future anchor tenant with selected bidder(s). Include details of any contractual impediment to this.	
Identification and sharing of approved commercial, industrial and residential (single and multi-family) housing developments within your jurisdiction.	
Identify all local franchise agreements in place and the length of their term	

Assets that your jurisdiction is willing to make available for selected bidder(s) to facilitate the installation of fiber optic cables:

Street Lights	
Power Poles	
Plots of Land (Fiber Huts)	
Rooftops	
Easements	
Future Plans for Street Repairs (Dates)	
Existing fiber (dark or lit) that could be made available	
Other Possible Assets/Procedures
